Bitdefender Advanced Threat Intelligence enables Security Operations Centers (SOCs) to easily integrate real-time threat information into their existing infrastructure and better understand sophisticated attacks.

With the combination of Bitdefender and the ThreatQ platform, organizations are able to import threat feeds and services into the platform for triaging, managing, enriching and scoring data from a centralized location.

As Bitdefender updates the data exposed as part of the Advanced Threat Intelligence solution, the new information will be automatically visible for the platform users without additional configuration.

**THREATQ BY THREATQUOTIENT™**

ThreatQuotient’s solutions make security operations more efficient and effective. The ThreatQ open and extensible platform integrates disparate security technologies into a single security infrastructure, automating actions and workflows so that tools and people can work in unison. Empowered with continuous prioritization based on their organization’s unique risk profile, security teams can focus resources on the most relevant threats, and collaboratively investigate and respond with the aim of taking the right actions faster.

**BITDEFENDER ADVANCED THREAT INTELLIGENCE**

Bitdefender solution delivers up-to-date, contextual intelligence on URLs, IPs, domains, certificates, files, Command and Control servers and Advanced Persistent Threats to Managed Security Service Providers (MSSPs), Managed Detection & Response (MDR) companies, IT security and investigation consultancies as well as large enterprises that need to block ingenious threats.
ABOUT BITDEFENDER

Bitdefender is a global security technology company that provides cutting edge end-to-end cyber security solutions and advanced threat protection to more than 500 million users in more than 150 countries. Since 2001, Bitdefender has consistently produced award-winning business and consumer security technology and is a provider of choice in both hybrid infrastructure security and endpoint protection. Through R&D, alliances and partnerships, Bitdefender is trusted to be ahead and deliver robust security you can rely on.
