THREATQ™ AND FS GROUP
Technology Segment: Threat Intelligence

The combination of ThreatQ and FS Group improves the efficiency and effectiveness of companies' security operations with unique threat intelligence feeds.

THREATQ BY THREATQUOTIENT™

ThreatQuotient's solutions make security operations more efficient and effective. The ThreatQ open and extensible platform integrates disparate security technologies into a single security infrastructure, automating actions and workflows so that tools and people can work in unison. Empowered with continuous prioritization based on their organization's unique risk profile, security teams can focus resources on the most relevant threats, and collaboratively investigate and respond with the aim of taking the right actions faster.

FS TI by FS GROUP

FS TI is an IP Anonymization feed that is associated with anonymous infrastructures including TOR, VPN, proxy. It consists of more than 300 services that can be utilized or abused by cybercriminals. This feed can be consumed by customers for incoming and outgoing traffic and platform monitoring.

FS TI contains both well-known proxies and VPN services list, as well as a list of IP addresses from DarkWeb resources. A special flag is provided to distinguish between these IP's based on how often promoted in criminal marketplaces or other resources and can be riskware potentially.

- More than 300 000 IP: TOR, VPN, proxy

- 60-90 minutes data updates, termless keeping of clients Logs

- Storage, instant integration in any infrastructure

INTEGRATION HIGHLIGHTS

Easily prioritize which vulnerabilities represent a real risk by using outside context.
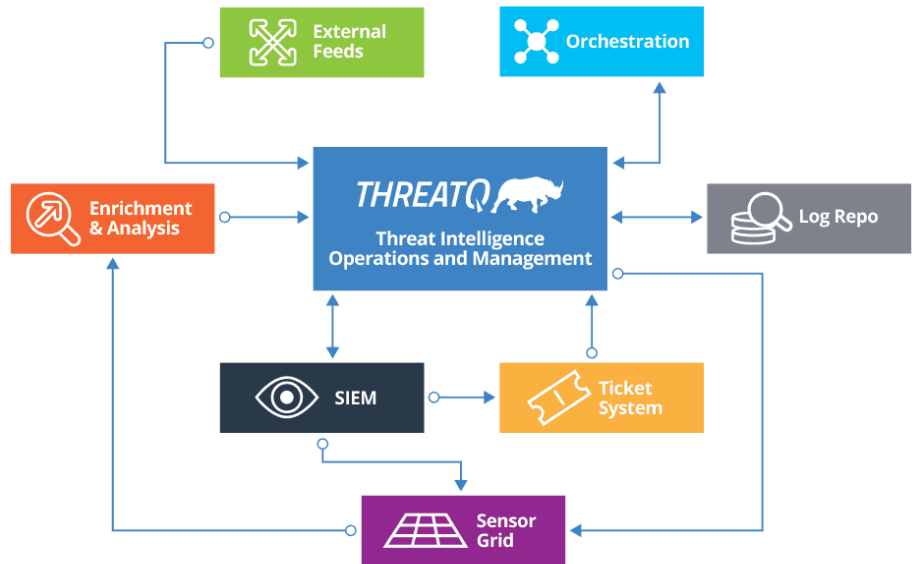

Improve the efficiency and effectiveness of companies' security operations with unique threat intelligence feeds and the ThreatQ Platform.

Strengthen existing processes and technologies into a single security architecture.

BENEFITS

- big data
- proactive TI collection approach
- earlier provisioning of data and thereby preventing attacks
- compatibility with solutions of the leading world-wide vendors
- complementarity with other feeds, namely, we provide unique information

FS Group has become a part of company Qintel, which is the world's top cyber intelligence and investigation company operating today and is capable of providing its clients and partners with unique insights into a variety of cyber threats and adversarial behavior relating to nation-state actors, criminals and hacktivists.

ABOUT THREATQUOTIENT™

ThreatQuotient's mission is to improve the efficiency and effectiveness of security operations through a threat-centric platform. By integrating an organization's existing processes and technologies into a single security architecture, ThreatQuotient accelerates and simplifies investigations and collaboration within and across teams and tools. Through automation, prioritization and visualization, ThreatQuotient's solutions reduce noise and highlight top priority threats to provide greater focus and decision support for limited resources. ThreatQuotient is headquartered in Northern Virginia with international operations based out of Europe, APAC and MENA.
