

# THREATQ™ AND MANDIANT THREAT INTELLIGENCE

Technology Segment: Threat Intelligence

With the combination of Mandiant Threat Intelligence and the ThreatQ platform, organizations can make threat intelligence actionable to improve the efficiency and effectiveness of security operations programs.

## THREATQ BY THREATQUOTIENT™

ThreatQuotient's solutions make security operations more efficient and effective. The ThreatQ open and extensible platform integrates disparate security technologies into a single security infrastructure, automating actions and workflows so that tools and people can work in unison. Empowered with continuous prioritization based on their organization's unique risk profile, security teams can focus resources on the most relevant threats, and collaboratively investigate and respond with the aim of taking the right actions faster.

## MANDIANT THREAT INTELLIGENCE

Cyber attackers are often better trained, better funded and better staffed than many security organizations. So security organizations must look for ways to increase their own security expertise and effectiveness. They need to improve their response capabilities and ensure their defenses are aligned against the most likely threats—without breaking the bank. Cost-effective Mandiant Threat Intelligence Subscriptions meet these challenges by providing a wide range of actionable threat data and finished intelligence to meet the tactical and strategic intelligence needs of organizations of all sizes, shapes and industries.

### INTEGRATION HIGHLIGHTS

Makes threat intelligence contextual, tailored and actionable to your security mission.

Offers visibility beyond the typical attack lifecycle, adding context and priority to global threats with MITRE ATT&CK.

Improves ability to prioritize and remediate security alerts, and patch security vulnerabilities

Delivers granular reports to help align security programs and resources against your most likely threats and actors.

Provides user-configurable Intelligence to eliminate noise at the integration level.

INTEGRATION USE CASES:

USE CASES	OBJECTIVE
<b>Incident Validation and Prioritization</b>	Determine which incidents are likely to pose a risk to the enterprise and prioritize those with the highest potential for negative impact on the business
<b>Incident Analysis</b>	Answer questions about the who, what, why, when and how of attacks. Determine if attacks are still in progress and identify their effects
<b>Containment and Remediation</b>	Disrupt attacker communications Remove malware and reverse changes Eliminate vulnerabilities
<b>Hunt Missions</b>	Uncover previously undiscovered attacks related to current incidents or to threats targeting the enterprise's industry, geographical locations, applications, etc.

The screenshot displays the 'FireEye Intelligence Reports' interface. At the top, there are navigation tabs for 'Activity Log', 'Connection', and 'Settings', along with 'Refresh Activity Log' and 'Run Feed' buttons. The main content area shows a 'Scheduled Run' that is 'Completed' on 05/07/2020 at 02:46pm. A progress bar indicates the following steps: 'Data Requested' (Run Started: 05/06/2020 02:46pm), 'Response Received' (05/07/2020 02:46pm), and 'Data Ingested' (Completed: 05/07/2020 03:07pm). Below the progress bar, there are three sections: 'Query Range' (05/06/2020 02:46pm to 05/07/2020 02:46pm) with a 'Run Again' button; 'Stored Files' (Download 350 files, Password: threatq) with a 'Download Files' button; and 'Ingestion Summary' which lists: 9 Adversaries, 126 Adversary Attributes, 94184 Indicator Attributes, 1652 Indicators, 31 Malware, 589 Malware Attributes, 162 Reports, and 30705 Report Attributes.

**ABOUT THREATQUOTIENT™**

ThreatQuotient's mission is to improve the efficiency and effectiveness of security operations through a threat-centric platform. By integrating an organization's existing processes and technologies into a single security architecture, ThreatQuotient accelerates and simplifies investigations and collaboration within and across teams and tools. Through automation, prioritization and visualization, ThreatQuotient's solutions reduce noise and highlight top priority threats to provide greater focus and decision support for limited resources. ThreatQuotient is headquartered in Northern Virginia with international operations based out of Europe, APAC and MENA. For more information, visit [www.threatquotient.com](http://www.threatquotient.com).

**ABOUT MANDIANT**

Mandiant Solutions brings together the world's leading threat intelligence and frontline expertise with continuous security validation to arm organizations with the tools needed to increase security effectiveness and reduce business risk.
