

THREATQ™ AND DIGITAL ELEMENT NETACUITY

Technology Segment: Enrichment and Analysis

With Digital Element's NetAcuity integration within the ThreatQ Platform, customers can enrich IP addresses quickly and easily. With one-click access, enrich IP addresses the most up-to-date characteristics such as geolocation, ISP, ASN and Proxy details to gain more context.

THREATQ BY THREATQUOTIENT™

ThreatQuotient's solutions make security operations more efficient and effective. The ThreatQ open and extensible platform integrates disparate security technologies into a single security infrastructure, automating actions and workflows so that tools and people can work in unison. Empowered with continuous prioritization based on their organization's unique risk profile, security teams can focus resources on the most relevant threats, and collaboratively investigate and respond with the aim of taking the right actions faster.

DIGITAL ELEMENT NETACUITY PULSE

NetAcuity® is our industry-leading solution for global IP location targeting precision and reach. NetAcuity offers unrivaled targeting at the country, region, city and postcode level — and is the only solution on the market that offers ZIP+4 targeting. The solution combines traditional infrastructure analysis and insights gleaned from a network of global commercial partners with location intelligence provided from mobile devices and billions of real-time data signals.

INTEGRATION HIGHLIGHTS

Enrich malicious IP addresses with geolocation data directly within the ThreatQ Platform

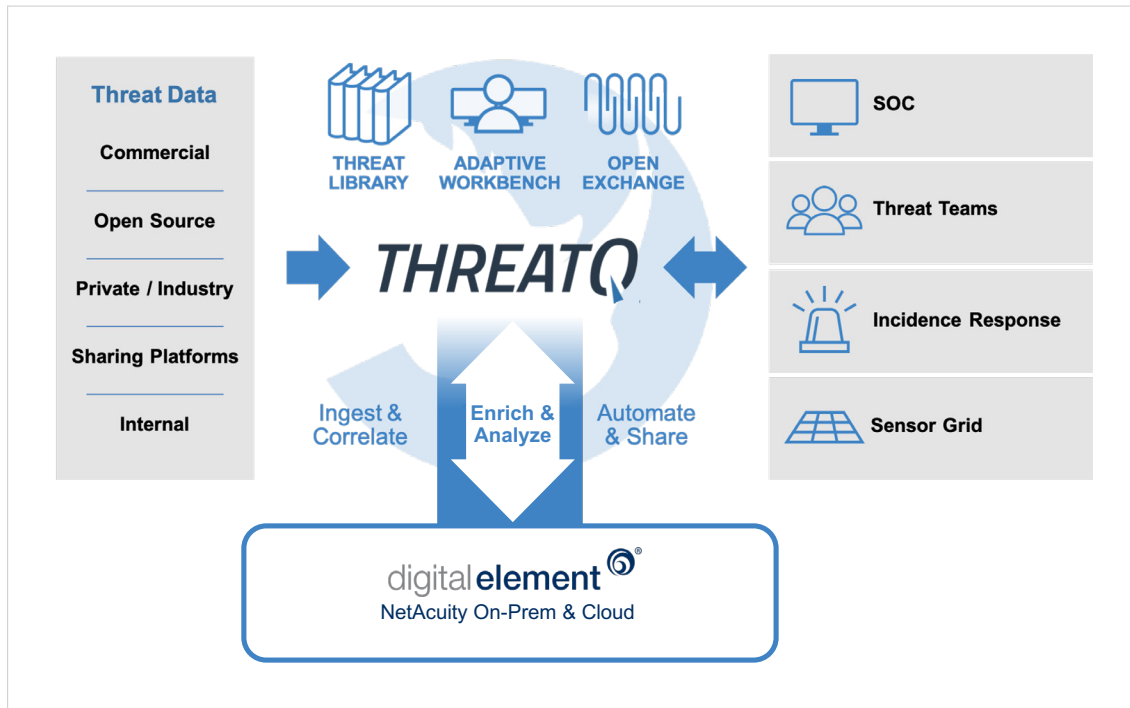

Accelerate investigations with saved search features on country codes and other IP address characteristics

Build behavior profiles around IP address using advanced IP analytics

INTEGRATION USE CASES

The Integration supports a variety of use cases such as:

- Blocking web traffic by location, ISP or Proxy type
- Office of Foreign Assets Control (OFAC) Compliance
- Know-Your-Customer
- Building behavioral profiles around IP addresses
- IP Analytics

ABOUT THREATQUOTIENT™

ThreatQuotient’s mission is to improve the efficiency and effectiveness of security operations through a threat-centric platform. By integrating an organization’s existing processes and technologies into a single security architecture, ThreatQuotient accelerates and simplifies investigations and collaboration within and across teams and tools. Through automation, prioritization and visualization, ThreatQuotient’s solutions reduce noise and highlight top priority threats to provide greater focus and decision support for limited resources. ThreatQuotient is headquartered in Northern Virginia with international operations based out of Europe, APAC and MENA.
