THREATQUOTIENT

THREATQ[™] AND SecurityScorecard

Technology Segment: Intelligence Feeds

Ingest SecurityScorecard ratings and outside-in vulnerability data into ThreatQuotient's Platform.

THREATQ BY THREATQUOTIENTTM

ThreatQuotient's solutions make security operations more efficient and effective. The ThreatQ data-driven security operations platform is both open and extensible, supporting the integration of disparate security technologies into a single security infrastructure, automating actions and workflows so that tools and people can work in unison. Empowered with continuous prioritization based on their organization's unique risk profile, security teams can focus resources on the most relevant threats, and collaboratively investigate and respond with the aim of taking the right actions faster.

SECURITYSCORECARD RATINGS

SecurityScorecard is an outside-in cybersecurity ratings platform. We scan 12M+ domains every day to discover issues, vulnerabilities and other cyber-related findings that increase breach risk for an enterprise.

INTEGRATION HIGHLIGHTS

Ingest SecurityScorecard grades and factor scores into the ThreatQuotient platform Residential Proxy Presence

Ingest event log information for a domain and the specific findings, vulnerabilities and other issues that contribute to an organization's score

INTEGRATION USE CASES

The Integration supports a variety of use cases such as:

- Add SecurityScorecard data as an input to the ThreatQ dashboard to provide an outside-in view of your own company's risk or the risks associated with your critical third parties.
- Leverage SecurityScorecard ratings and event information with the alerting features within the ThreatQ platform.

ABOUT THREATQUOTIENT™

ThreatQuotient improves security operations by fusing together disparate data sources, tools and teams to accelerate threat detection and response. ThreatQuotient's data-driven security operations platform helps teams prioritize, automate an d collaborate on security incidents; enables more focused decision making; and maximizes limited resources by integrating existing processes and technologies into a unified workspace. The result is reduced noise, clear priority threats, and the ability to automate processes with high fidelity data. ThreatQuotient's industry leading data management, orchestration and automation capabilities support multiple us e cases including incident response, threat hunting, spear phishing, alert triage and vulnerability prioritization, and can also serve as a threat intelligence platform. ThreatQuotient is headquartered in Northern Virginia with international operations based out of Europe, MENA and APAC.

For more information, visit www.threatquotient.com.

ABOUT SECURITYSCORECARD

Funded by world-class investors including Evolution Equity Partners, Silver Lake Waterman, Sequoia Capital, GV, Riverwood Capital, and others, SecurityScorecard is the global leader in cybersecurity ratings with more than 12 million companies continuously rated. Founded in 2013 by security and risk experts Dr. Aleksandr Yampolskiy and Sam Kassoumeh, SecurityScorecard's patented rating technology is used by over 30,000 organizations for enterprise risk management, third-party risk management, board reporting, due diligence, cyber insurance underwriting, and regulatory oversight. SecurityScorecard is the first cybersecurity ratings company to offer digital forensics and incident response services, providing a 360-degree approach to security prevention and response for its worldwide customer and partner base. SecurityScorecard continues to make the world a . safer place by transforming the way companies understand, improve and communicate cybersecurity risk to their boards, employees and vendors. Every organization has the universal right to their trusted and transparent Instant SecurityScorecard rating. For more information, visit securityscorecard.com or connect with us on LinkedIn.
