EMPOWER THE HUMAN ELEMENT OF CYBERSECURITY

Strengthen your security posture with a threat intelligence platform designed to enable threat operations and management and arm your analysts with the intelligence, controls and automation required to protect your business, employees and customers.

Introducing the industry’s first threat intelligence platform (TIP) designed to enable threat operations and management. ThreatQ is the only solution with an integrated Threat Library™, Adaptive Workbench™ and Open Exchange™ that help you to act upon the most relevant threats facing your organization and to get more out of your existing security infrastructure.

IMPROVE SITUATIONAL UNDERSTANDING
ACCELERATE DETECTION AND RESPONSE
MAXIMIZE EXISTING SECURITY INVESTMENTS
ADVANCE TEAM COLLABORATION
Not All Intelligence Is Created Equal.

ThreatQ accelerates the transformation of threat data into actionable threat intelligence by giving defenders unmatched control through a Threat Library, an Adaptive Workbench and an Open Exchange, to ensure that intelligence is accurate, relevant and timely to their business. With ThreatQ, users get more out of security resources: people and infrastructure.

TAILOR INTELLIGENCE TO YOUR SPECIFIC ENVIRONMENT

ACCUARTE      RELEVANT        TIMELY

Given vast amounts of contextualized threat data from internal and external sources, the challenge is to make sure that it is accurate, relevant to your business, and timely enough to take meaningful action upon it.

THREE KEY PILLARS TO DELIVER THREAT OPERATIONS AND MANAGEMENT

THREAT LIBRARY
Central repository of relevant and contextual intelligence customized for your unique environment.
• Self-tuning
• Structured and unstructured data import
• Context from external + internal data
• Custom enrichment source for existing systems

ADAPTIVE WORKBENCH
Customize the intelligence life cycle for proactive detection and response.
• Automated, customer-defined prioritization
• Unified opinion across all sources
• Push-button operations
• User-specific watch list widget

OPEN EXCHANGE
Open and extensible architecture enables a robust ecosystem.
• Bring your own connectors and tools
• SDK / API for customization
• Standard STIX/TAXII support

FROM THE BOARD ROOM TO THE SOC, EXECUTIVES AND ANALYSTS ALIKE CAN BENEFIT FROM A THREAT OPERATIONS AND MANAGEMENT PROGRAM. LEARN HOW THREATQ PROVIDES SOLUTIONS TO USERS ACROSS THE ORGANIZATION.
OPERATIONALIZE CYBER THREAT INTELLIGENCE ACROSS YOUR ORGANIZATION

HOW IT WORKS
The most important part of your threat operations and management framework is the tool that brings it all together. ThreatQ delivers the first open and extensible threat intelligence platform to provide defenders the context, customization and collaboration needed for increased security effectiveness and efficient threat operations and management.

LEADING USE CASES POWERED BY THREATQ

THREAT DATA AGGREGATION
Combine, normalize and contextualize threat data from both external and internal sources into a single, customized Threat Library to be used by teams across the organization.

THREAT DATA —> OPERATIONAL INTELLIGENCE
Turn threat data into threat intelligence through context and automatically prioritize based on user-defined scoring and relevance.

SPEARPHISHING
Investigate spearphishing attacks and track over time using the data to improve your defensive posture.

INTELLIGENCE PIVOTING
Utilize campaign, malware and indicator knowledge to identify related attacks and adversaries that may affect your operations.

BREACH INVESTIGATION
Support scoping and remediation by correlating artifacts of an investigation with a Threat Library of related indicators and context.

THREAT HUNTING
Empower your teams to proactively search for malicious activity that has not yet been identified by your sensor grid.

IMPROVE INCIDENT RESPONSE
Global visibility to adversary tactics, techniques and procedures improves remediation quality, coverage and speed.

STRENGTHEN SENSOR GRID
Make firewall, IDS, IPS, SIEM and other devices smarter with the most accurate and relevant threat data.

AUTOMATION AND ORCHESTRATION
Provide threat intelligence to emerging security automation and orchestration tools.

SECURITY OPERATIONS ROI
Retrospectively evaluate your intelligence sources’ value, versus the relevance of their information to incidents you experience.
ABOUT THREATQUOTIENT™

ThreatQuotient understands that the foundation of intelligence-driven security is people. The company’s open and extensible threat intelligence platform, ThreatQ™, empowers defenders to ensure the right threat intelligence is utilized within the right tools, at the right time. Leading global companies are using ThreatQ as the cornerstone of their threat intelligence operations and management system, increasing security effectiveness and efficiency.
